Gerard-

I do not have any comments on the draft agenda, but I do prefer the level of detail in the draft letter. I am concerned that if this is all that the State intends to provide AVX prior to the meeting that AVX will not come to the meeting prepared to discuss any of the technical concerns and comments that the State has on the Phase III. If possible, I'd suggest that at least some of the priority comments/concerns and/or basis for denial/notice of deficiency be outlined so AVX can consider and prepare for discussions on those points for Thursday.

Subject: Aerovox - Plan B

Hi all,

Still working through the draft of the letter... And if you are too, you know it is a very complex and long letter. Given that, we have to prepare for the possibility that we may not get it out

before the meeting.

Hence, Plan B.

I have attached an draft of a proposed detailed agenda that outlines our position on the Phase III. Since it looks like we are not going to get the letter out before the meeting we need to send the agenda beforehand... We would like to send it by the end of the day to give AVX and Brown & Caldwell time to prepare for the discussion.

Let me know what you think.

Thanks for all your input.

Gerard Martin
